Fire Danger	Key Message	Fire Behaviour	Supporting Messages
MODERATE	**Plan and prepare.**	Most fires can be controlled.	• Stay up to date and be ready to act if there is a fire.
HIGH	**Be ready to act.**	Fires can be dangerous.	• There's a heightened risk. Be alert for fires in your area. • Decide what you will do if a fire starts. • If a fire starts, your life and property may be at risk. The safest option is to avoid bushfire risk areas.
EXTREME	**Take action now** to protect your life and property.	Fires will spread quickly and be extremely dangerous.	• Do not wait for a fire to start- Act now to protect people and property. • Monitor official sources for warnings. • Fires will move quickly and threaten your life. • Leaving before a fire threatens your community is the safest option for your survival. • Only stay if you and your home are prepared*. • Consider whether you need to be in or travel through these areas
CATASTROPHIC	For your survival, **leave bushfire risk areas.**	If a fire starts and takes hold, lives are likely to be lost.	• Homes are not built to withstand fires in these conditions. • Protect your life by leaving early. • Do not travel into or through high-risk areas. • Lives and properties are likely to be lost if a fire starts.
